ISCN'09 will be a two days stand-alone event in Istanbul, Turkey.

ISCN'09 is organized by The Department of Computer Engineering at **Boğaziçi University**, Istanbul, Turkey

ISCN'09 is technically sponsored by **IEEE Comsoc Turkey Chapter** (*pending for approval*).

The conference will provide a broad forum an outstanding opportunity for researchers, academicians and network engineers to discuss new and emerging technologies in the field of computer networks and related areas.

Research papers, which will be refereed, should describe original and significant work in the research and practice of computer networks. Research case studies, empirical research, and experiments are particularly welcome. Topics of interest include, but not restricted to, the following fields:

- 3G/4G networks evolution
- Convergence/Integration in networks
- Distributed systems
- MANETs & sensor networks
- Multimedia communication
- Network management and performance
- Network security
- Network traffic engineering
- Network testbeds
- Next generation networks
- Optical networks
- Cognitive networks
- Software defined radio
- Wireless and mobile networks
- Automotive/vehicular networks and applications
- Satellite networks
- Biologically inspired networks
- Informatics
- Signal processing and applications,
- Biomedical Imaging and Modeling

Best Paper Award

Best paper among researchers will be selected and an award will be presented to the winner at the conference.

Paper Submissions

Papers must be written in English. Use the [sample manuscript](#) as a visual aid for formatting. Preferred maximum paper length is 6 printed pages. Accepted papers will be published in the symposium proceedings. Paper submission instructions are available at the web site.
